OFFICIAL REPORT

ACTIVITY PROGRAM	Coordinating body of knowledge and course learning outcomes
DATE	May 2023
PLACE	Online
PERSONS INVOLVED	SPEL lecturers: 17

Summary of activity:

- Faculty and the university will include future students' language proficiency test result (at least 420 for TOEFL) as part of the admission requirement
- In order to strive for C1 or C2, authentic materials from journals, literary works, and other online multimodal sources will be integrated to courses in English study programmes and extensive reading and listening activities are encouraged
- In order to challenge the students to strive for language levels higher than B2 to meet international standards of C1 or even C2 in ideal circumstances, SPEL continues to use the language of instruction, texts, and materials as well as the language used in class.
- SPEL is striving for graduates to achieve a C1 or even C2 level in the language of their respective study program.
- Given the average language proficiency of Indonesian high school graduates, SPEL continues to explore the possibility of testing applicants' language proficiency as part of the admissions process in order to start courses at a potential slightly higher level
